Why Such Difference

A traveler for one of the largest stove manufacturers in the country was in our office a brief time a few days ago. The editor took occasion to inquire how the prices were on stoves. He said the stove men had, so far, made no drop in their prices and admitted they were never higher. He further admitted that all labor and expenses in producing the stoves had declined considerably. He was taking fall orders for stoves at the price.

In the presence of these conditions, we often wonder why the stubborn labor organizations hold out in the face of present conditions. In this labor is wrong. But how about the stove makers, the railroads, the coal operators and scores of other money suckers who do nothing but hold up the public because they are legalized to do so.

The above condition breeds and makes Socialists, Bolsheviks, strikers, law breakers and property destroyers. The Times confesses there is no immediate relief in sight.

Shale Investigations

Persons interested in the shale developments numbering about seventy-five came here the 26th to look at the property of the Devon Shale Oil Company. So many coming in a body proves one thing conclusively: Stockholders of the company are interested in their property or they would not have been here. We did not get to interview any of them but we learn some of them expressed themselves as "well pleased." If they wish to do business here they will find a hearty and generous welcome. They have all acted wholly honorably with Clay City. We thus trust it will be so they can find it to their advantage to put in a plant here.

Raid on Moonshiners

The Sheriff's force landed a moonshine still between this city and Stanton Saturday morning, destroyed 200 gallons of beer and destroyed the still and equipment. The still was made from Gulf Refining Company's drum. It will be remembered that the Clay City Motors Company had a drum of this kind stolen about six months ago, thus it may be concluded this particular still has been operating this long.

On Monday night Government officers, reinforced by the Sheriff force, searched Henry Caudell's house and found 3 quarts of liquor and arrested Caudell.

Later found still on Hatton Creek and quantity of beer. Blaine Creech was arrested, thought to be the operator.

Light Showers Visit Us

Light showers continue to fall at intervals, but it has been so hot they do but little good, the ground soon drying out again. The river is at a very low stage and has not been muddy for possibly two months or longer.

G. W. Lewis Sinks to Rest at Winchester

Geo. W. Lewis died in his home in Winchester Saturday night in his sleep, and was found by his wife at eleven o'clock. He retired feeling as well as usual. He had been about town on Saturday and attended the ball game in the afternoon.

Funeral services were conducted in the home on Broadway Monday afternoon by Rev. G. W. Banks and Rev. W. L. Byrd, pastor of his church. Burial in the Winchester cemetery.

He is survived by widow, formerly Miss Madge McKinney, a sister to Mrs. J. E. Burgher, of this city, two sons, Rucker and G. W. Lewis, Jr., both of Clark county.

Mr. Lewis moved from Spout Spring to Clark county in the spring of 1895 and engaged in farming, making quite a success of it. He leaves quite a good estate.

He was born and reared in Madison county and was 57 years old. He had been in poor health and a great sufferer for nearly twenty years, but he kept going and attending to business until the last day. Mr. Lewis had many friends who are grieved at his passing.

No Money for Powell Farmers

Recently while in Louisville the editor called on the Federal Land Bank to see if there was an opening for the organization of a Loan Association in the county.

The officers of the bank were very courteous but frankly told us that there were no funds to loan now. In fact they said their bank had application for \$8,000,000 and had only one-half this amount in sight to loan. They said other farming districts were suffering much worse than Powell county, and that we would have to wait until congress voted more money for their benefit.

From the statements they made the institution in other districts with the farmer is indeed very deplorable.

A Correction

The Times was in error last week when it stated Ova Faulkner was sent up for life for the killing of Roy Munn. It should have stated five years as that was the limit of time. We are informed the first trial resulted in life sentence and the second for only five years. The Times regrets the confusion of time and hastens to make correction of our wrong statement.

Ova is a young man and comes of one of the best families in the county. It is thus hoped he will serve his time out and come home and make the character of citizen of the county his ancestry made.

Wheat Drops in Market

Latest reports are that wheat has dropped in market 9 cents per bushel with prospects for a further decline. Getting time of the year when the farmer has to market his wheat.

Get Your Scythes Ready

According to section 4342 A 1-2-3, Kentucky Statutes, each year between July 1st and August 31 every owner, controller and manager of lands bordering and abutting on the public highways must cut, clear away and remove from said highway all bushes, weeds, shrubs and overhanging limbs of trees all other obstructions, as well as to keep all hedge fences along such highway so trimmed and cut back that same at no time will become more than five feet high.

Under said law, every person who fails or refuses to comply with this notice, shall upon conviction be fined in a sum of not less than twenty (\$20) dollars and not more than fifty (\$50) dollars.

In years passed this law has not been rigidly enforced, but in some counties, the officers are going after land owners this time to see that it is enforced this year.

Getting Results

The Powell Circuit Court is to be commended for their success this week in enforcing the law against leggers and shiners. Quite a number of them have been indicted, tried and fined. All good people are behind the court and the juries of the county in meting out justice to these law violators.

Sugar at Lowest

Sugar is selling lower than it has for several years past. Less than one-fourth of what it sold for one year ago. And this too at blackberry time.

One Days List of Accidents

There were ten automobile accidents in Louisville Sunday. Two killed and eleven hurt. Powell may well feel proud of its record. No deaths from auto accidents to date. The only way to maintain this record is careful driving and a constant lookout for the reckless other fellow, always giving him the lion's share of a narrow road, and if need be, stop still until he passes by.

The Government has to date made a total disbursement of \$226,486,891.34 in meeting both the compensation claims of former service men disabled by reason of wounds, injuries or disease incurred in the world war, and the death claims of the dependents of those who made the supreme sacrifice, according to an announcement of Director, C. R. Forbes of the Bureau of War Risk Insurance. The disbursements for disability have aggregated \$192,677,589.48 and the death disbursements \$33,809,301.86.

Between June 1 and June 15 the Bureau mailed 221,612 checks to cover this disbursement to former service men.

Growing day by day more frail,
Bearing sweetly all his sufferings
Without murmur, moan or wail.

Where the golden waters flow,
And we hope that he is happy
In his everlasting home.

Gov. Morrow Criticized

Governor Morrow is being severely criticized by the press of the state, Republican and Democratic alike, for his ill advised pardon of a wealthy convict. The Governor admits the incident as a grave mistake, but he was imposed upon by others. He says he will ask the next Legislature to provide an officer whose duty it will be to investigate applications for pardons without taking the time of the Governor for this purpose. The Governor agrees that he did not thoroughly investigate the record, of Blair, the culprit he pardoned, or else he would not have done so.

Every city has its failures. They are inevitable. They are in fact a sign of growth just as growing pains are the sign of growth in the small boy. But have you noticed how few and far between have been the failures in our own little city in recent years? And those that have occurred have been for other reasons than the lack of business usually. It speaks well for the stability of our merchants that we have such a splendid record.

"Trying to Get Out of Business"

That's what one customer said to us the other day when we offered for sale a set of **Lee Puncture Proof** tires. He rightly said it puts you out of the tire repair business completely when your customers equip their machines with **Lee Puncture Proofs**. And this a big part of our business too. We sell patching and glue in large quantities now, costing our customers a large sum of money to say nothing of the annoyance of trying to keep tires in shape to run on air instead of the rim. The next time you want a tire get the **Lee Puncture Proof** and save the cost of punctures and the time and worry of doing the work.

DON'T COUGH

You can stop that distressing cough—stop it quickly and surely. **Foley's Honey and Tar** is the best known and most successful family cough medicine on the market. It loosens the phlegm and mucus; soothes the raw inflamed surfaces; cures the soreness and gives quick relief. Contains no opiates.

P. G. Fove, Bedford, Ind., writes this: "My wife had a very bad cough. I lost my weight and got so thin it looked as though I would never get well. I tried Foley's Honey and Tar and after taking two bottles, I am now well and back to my former weight."

It Costs Money To Travel

With high railroad fares and higher hotel bills fewer people this year will go to health resorts to get rid of impurities in the system that cause rheumatic pains, backache, swollen, sore and painful joints and muscles.
